Will the Spare Tire Carrier fit my vehicle?

If the distance between the rear door of the vehicle and the center of the receiver hitch pin hole is at least 6¼" from the rear of the vehicle, the Spare Tire Carrier should fit.

Will I still be able to open the rear door?

If the distance from the bottom of the rear door to the center of the receiver hitch pin hole is at least 8¾", it will fit most applications. *Note: Some vehicles use oversized tires, which could prevent the door from fully opening.*

Note: If you have deep dish or dually-style wheels, you will need to use the 195225-S or 195250-S Spare Tire Carrier instead.
